

LEAD INSTRUCTOR TRAINING PROGRAM

The Lead Instructor Training Program replaces the EMSTC program.

All currently recognized EMSTCs and individuals wanting to conduct EMS educational programs in Montana must attend and successfully complete a Lead Instructor Training Program.

The Board of Medical Examiners intends to offer 2 (two) programs each fall and spring to meet the needs of the new and re-certifying Lead Instructors.

The “first” of many Lead Instructor Training Programs is scheduled for, June 18-19-20, 2004 to be held in Billings, Montana, at the Billings MSU campus, 3803 Central Ave.

These programs will contain three specific portions; (1) administrative responsibilities for conducting EMS educational programs in Montana, (2) how to conduct local examinations (all levels of EMT) and (3) basic instructional methodologies for being successful. While all three portions are important, I understand that many current or potential Lead Instructors have instructor certifications or education and do not want to sit through yet another instructor program. Therefore, if you are planning to attend and have documentation of such instructor training, please attach a copy of your documentation and we’ll excuse you from that portion of the required training program. Be sure to check the correct box on the application and attach your documentation.

There is no charge to attend this program, refreshments (coffee, etc) may be available and a donation will be asked to cover those costs. Time will be provided for participants to leave the facility for lunch. The proposed schedule is: Friday 7pm to 10pm, Saturday 8am to 5 pm and Sunday 8am to 3pm.

I look forward to seeing you there. Kenneth Threet
